

# Havi klimatológiai adatok - 2017. február - Lőrinci

|                                 |         |     |
|---------------------------------|---------|-----|
| Havi középhőmérséklet           | 2,3 °C  |     |
| Havi átlagos minimumhőmérséklet | -1,0 °C |     |
| Havi átlagos maximumhőmérséklet | 5,6 °C  |     |
| Havi legalacsonyabb hőmérséklet | -5,0 °C | 26. |
| Havi legmagasabb hőmérséklet    | 17,4 °C | 28. |
| Legnagyobb napi hőingás         | 16,3 °C | 27. |
| Havi összes csapadék            | 36,5 mm |     |
| Legcsapadékosabb nap            | 16,0 mm | 1.  |
| Csapadékos napok száma          | 11      |     |
| Jelentős csapadékú napok száma  | 2       |     |
| Zivataros napok száma           | 0       |     |
| Forró napok száma               | 0       |     |
| Hőségnapok száma                | 0       |     |
| Nyári napok száma               | 0       |     |
| Fagyos napok száma              | 22      |     |
| Téli napok száma                | 4       |     |
| Zord napok száma                | 0       |     |
| Ködös napok száma               | 12      |     |
| Legnagyobb hóvastagság          | 15 cm   |     |
| Hótakarós napok száma           | 5       |     |

| Nap           | 1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | 4
